NOTES OF THE WEEK.

1 Mr. Adams holds a large book sale on Saturday evening, when one of Lumley's invoices of quaint old books will be closed out. We would tender our thanks to Capt. Anson of H.B.M's, ship Reindeer, for courtesies in the

news line, also to Purser Adams of the mail steamer

SOMETHING NEW .- The baby Elephant has arrived, and will be exhibited with a small collection of animals, on Thursday pext. For particulars, see ad-

take passage in the steamer Kilauen for Hilo, where she will spend several weeks. Lay We are requested to notify members of Honduiu Royal Arch Cuspter, No. 1, that there will be a secular meeting held this evening, after which a special specting will be held for the purpose of conferring degrees. A full attendance is requested.

A DISCOVERY .- At a 1ste meeting of the California Academy of Sciences, Dr. Harkness read an importmust which will full on the owners of ships and of the grain and paper. He reports having found in Plumes county, near Big Meadows, a volcano which has beca in active operation within twenty five years; also, that he discovered in the same vicinity a take larger than Lake Donner, and at an elevation greater than any other body of water on the continent-7,380 feet above the level of the sea.

No Wan - Among the latest telegrams received, was one from Sharghee, China, stating that "the difficulty between China and Japan has been amicably settled. China agrees to pay an indemnity of 500,000 tacls, in consideration of which the Japa nese troops are to be withdrawn from Formosa. There is very little question but China would have suffered most in a war with Japan,

THE KILAURA KEEPS HER APPOINTMENTS.-Not-Withstanding a rumor which prevailed last Monday. that the steamer would be withdrawn from her reguler trip to Kaual this week, In order to enable the Judges to hold the Labaina term, it appears that there will be no such new departure. We say new departure, because the public is becoming assured per up for San Francisco is the bark B. C. Murray, to mit in that under lits present agency, the steamer will be managed for the public Interests, and for nothing Storms may occur sometimes, and terms of Courts are as certain as legislature can make them. but it seems that, if Providence permits, the Kilanes will keep ber appointments.

Monn ion -We have seen a plan for an ice manufactory to be run by water power, drawn in San Francisco for Mr. Recroft of this city, who brought with him in the Cyphrenes most of the fixings necessary. Mr. Young has contracted for making the ammoniacal pump, &c., and in all probability the works will be running in a little over two months. On account of the water-power being much cheaper than steam, combined with the most modern improvements in the machinery, Mr. Rycroft should be able to sell ice at a lower rate than has heretofore been done in this city, provided every thing works as well as unticipated.

THE AUSTRALIAN LINE -In the Queenslander we find the following telegram from Sydney: "It is understood that Mesers, Sampel and Russell, as the representatives of New South Wales and New Zealand, have agreed to earry on the mail service to England ela California on the same system as existed under H. H. Hall's service. The A.S.N. Co. are to continue the temporary service to San Francisco until suitable steamers are provided under the new contract, and which is yet to be made."

- On this basis the service will continue until a new contract is entered into, the bouts touching at Auckland in going and returning. The Australish Steam Navigation Company has made a low bid to perform the service, and the probability is they will secure the contract whenever the two governments are at liberty to enter into one.

THE KONA -Another Kons storm passed over the islands last week, commencing on Tuesday night and breaking up on Saturday. On Wednesday the barometer fell to 29:60, the lowest point it has indicated for many months. The rainfall on Thursday and Friday amounted to 10 65 inches. that of the first day having been the extraordinary trees and damage to houses and crops, we learn of no serious losses-at least nothing compared with what is often caused in other countries by such gales. In China, for Justance, eight thousand lives were 13 Age segment.

The chief engineer appears to be the right man for his plane. The Kilanea goes to Nawillwill on Friday, and on Monday bext leaves to make the circuit of Hawaii.

Vent Swall .- The Advertiser man thinks he has found a near relative of his doing the scientific for the GARRYTE. The fact is, none are so great asses as those who cannot see the nature of a trifling mistake. The error alluded to was in the types, and not in the copy, where it read-"Sd, to see all celestial phenomena and especially the coming transit of Veuns. 4th, to photograph the same." Some newspaper men are gifted with very small intellects. and can only correct a typographical error by baving it explained to them. It must have been of one of these long-cared fellows that a Chicago man wrote, with more truth than courtesy:

There is a stool.
Stool, fool,
Fool, stool,
Old stool,
Dumphool."

AMERICAN TRANSSIVING DAY .- By the late mall, the proclamation of President Grant appointing the 26th day of November, as a National day of Thanksgiving in the United States has been received. We

insert it fall: PROCLAMATION. WASHINGTON, October 29th -The President has washington, October 2002.—Interveneer una insured the bollowing proclamation:

"By the President of the United States of America. A proclamation. Beminded by the changing seasons that it is time to pause in our daily aveca-tions and offer thanks to Almighty God for the mer-

seasons that it is time to passe in dut daily avecatious and offer thanks to Almighty God for the mercies and absendance of the year which is drawing to
a close; the bleasings of a fire Government continpe to be wonelsafed to us, the earth has responded
to the labor of the husbandman, the land has been
free from pestilence, internal order is maintained,
and pence with other Powers has prevailed. It is
fitting at stated periods we should cause from our
accustomed pursuits and from the turmoil of our
daily lives, and unite in thankfulness for the blessings of the past, and the cultivation of kindly feelings toward each other. Now, therefore, recogniring these considerations, I, U. 8 Grant, Precident
of the United States, do recommend to all citizens
to assemble in their respective places of worship on
Thursday, the 36th day of Navember occu, and express their thanks for the mercy and favor of the
Almighty God, and laying saide all political contentions and all scentar occupations, to observe such
day as a day of thankagiving and praise. In witbean whereof I have hereonto set my hand and
caused the seal of the United States to be affixed.
Done at the city of Washington on the 26th day of

Done at the city of Washington on the 20th day of October, in the year of our Lord, 1874, and of the in-dependence of the United States the 99th. [Signed.] U. S. GRANT, President HAMILTON FIRE, Secretary of State. Is accordance with the above, there will be pube religious services at the Fort Street Church in this city, to morrow at II o'clock, on which occasion Rev. Mr. Front will presch a thanksgiving discourse.

THE PROMESSIVE CONCERT. - This entertainment. which has been advertised for two or three weeks, took place last evening in the Hall of the Hotel, which was altogether too small for the large andience attracted to witness it, and many who purchased tickets could not even obtain entrance. The programme was well calculated to attract, and consisted of vocal and instrumental music and tableaux. Of the latter there were eight, some of

European.

Celebration of Lord Mayor's Day. Lexpox, Nov. 9th .- A grand banquet was given at

the Lord Mayor's residence this evening in considers tion of the day. A large number of invited guests, including members of various foreign legations and other distinguished foreigners were present to participate in the festivities of the occasion. Among the English Cablact Ministers who accepted invitations were Mr. Disraeli, the Earl of Malmsbury, Earl of Derby, Earl of Carnovan, Marquis of Salisbury, Mr. Gatherne and Mr. Ward Hunt. Speeches were made by several Cabinet Ministers, in which especial refer ence was made to the impartial administration of the affairs of state by Disraels since his succession to the Premiership. In replying to the toast, he thanked the members of the Cabinet for the support rendered im and for their complimentary reference to his inbors during the last session of Parliament. Referring to Mr. Gladstone's anti-Papal manifesto, be said if the troubles anticipated by Mr. Gladstone should

occur, the Conservative party of England would rindieate the principles of religious liberty and truth. Referring to the recent outery for a separation of the Colonies, Mr. Disraeli distinctly declared himself in favor of maintaining the integrity of the Empire. He said that of this policy the annexation of the Fiji Islands was proof. The Government was resolved to consulidate the Empire and establish an identity of interests and sympathy with the Colonies. The Goverament believed in the maintenance of peace, for which all the great powers were anxious.

Effect of the Democratic Victories on United States Securities in Europe.

London, Nov. 4th .- The news of the Democratic victories in the United States creates considerable surprise. In view of the many reports which have circulated here in the past regarding the financial policy of the Democratic leaders, some capitalists claim that the present success of the Democrats will have a depressing effect on United States securities, while others claim that the change will in no way affect them probably, as there could be no change in the Adminstration for the next two years. As yet the news has not been made public enough to determine its effects. It is learned from well informed sources that the Earl of Dorby has counselled the Dutch Government

to abandon the Achinese war. Loxnex, Nov. 1th .- The scheme lately submitted and adopted by the Executive Committee of the National Agricultural Laborers' Union by a deputation from Mississippi for the emigration of five millions of farm laborars to the United States, is causing a great stir among the farmers throughout the country. A THOUSAND ARTICLES FOR USE & CONVENIENCE The immense draft of labor proposed to be made on the country will, it is said, be strongly apposed by farmers here. The Laborers' Union has already enrolled a large number of man for the United States, MANAGE OF STREET, NAME AND POST OF

and there is every probability that the project will be carried out suppersfully.

The continued increase of English emigration is attracting the attention of Government circles. During the present year more Euglish than Irish have emigrated from Great Britain.

Germany. Bentan, Nov. 4th .- The Emperor has promulgated which were admirably executed. Their titles were a rayal decree conferring on the Provinces of Aleace Taming the Shrew"-"Cinderelia" in three parts | and Lorraine the right to elect a Provincial Assembly. -"The Gypsey's Warning" - "Rebecca at the The Assembly is to have the privilege of holding pri
